Consumer Benefits

Polk's Legendary Effortless Bass

A big 12" Dynamically Balanced woofer in a ported cabinet, powered by a clean and ultra-efficient 100W Class A/B amplifier delivers bass almost to the edge of human hearing—down to 24Hz—adding more punch and impact to your favorite music, movies and video games.

Built to Withstand the Rumble

When you want bass this loud and this low, a subwoofer needs more than a great woofer and powerful amplifier to make it seem effortless. Monitor XT12 is housed within a rigid, low-resonance cabinet to provide clean, loud bass and its specially designed, removable grille minimizes sonic interference.

Easy Setup and Customizable Bass

Featuring line level (RCA), nickel-plated speaker connectors, and LFE inputs Monitor XT12 is compatible with both the latest Dolby Atmos and DTS:X enabled AV receivers and vintage components alike. And with control over phase, crossover, polarity and volume, you can tune the MXT12s performance to your room, system and listening style.

The Evolution of a Hi-Fi Classic, Now for Home Theaters

With a history going back to 1974, the Monitor XT12 is the subwoofer for the next generation of Polk's critically acclaimed Monitor line of speakers. Loud, low and with effortless bass, the MXT12 will improve the sound and impact of anything you're listening to.
