NF Sub

Subwoofer RCA phono cable

Preassembled subwoofer cable for connecting active subwoofers to home-cinema systems! Just the thing for connecting active subwoofers to AV receivers. The inner conductor's large diameter and the coaxial design mean that this Oehlbach cable is particularly suitable for the transmission of low frequencies. The inner conductor made from oxygen-free OFC copper also guarantees absolutely precise and powerful bass reproduction. The effective copper-braid shielding eliminates any occurring signal interference and guarantees perfect transmission quality. The subwoofer cable is extremely flexible in spite of its being very robust and also comes with solid plugs that are responsible for creating the optimum contact.

Features

- ✓ 24- carat gold-plated contacts
- ✓ double shielding
- ✓ Robust plastic sheathing
- ✓ OFC – oxygene free copper
- ✓ highly flexible cable
- ✓ Solid metal housing

Technical Data

Inner conductor material	OFC – oxygene free copper
Cable sheathing	plastic
Cable geometry	Round
Plug type	Straight
Shielding material	1 x copper braid

 Flexible

 OFC
Oxygene free copper

 24 ct
